VICE CHANCELLOR OF UNIVERSITY:

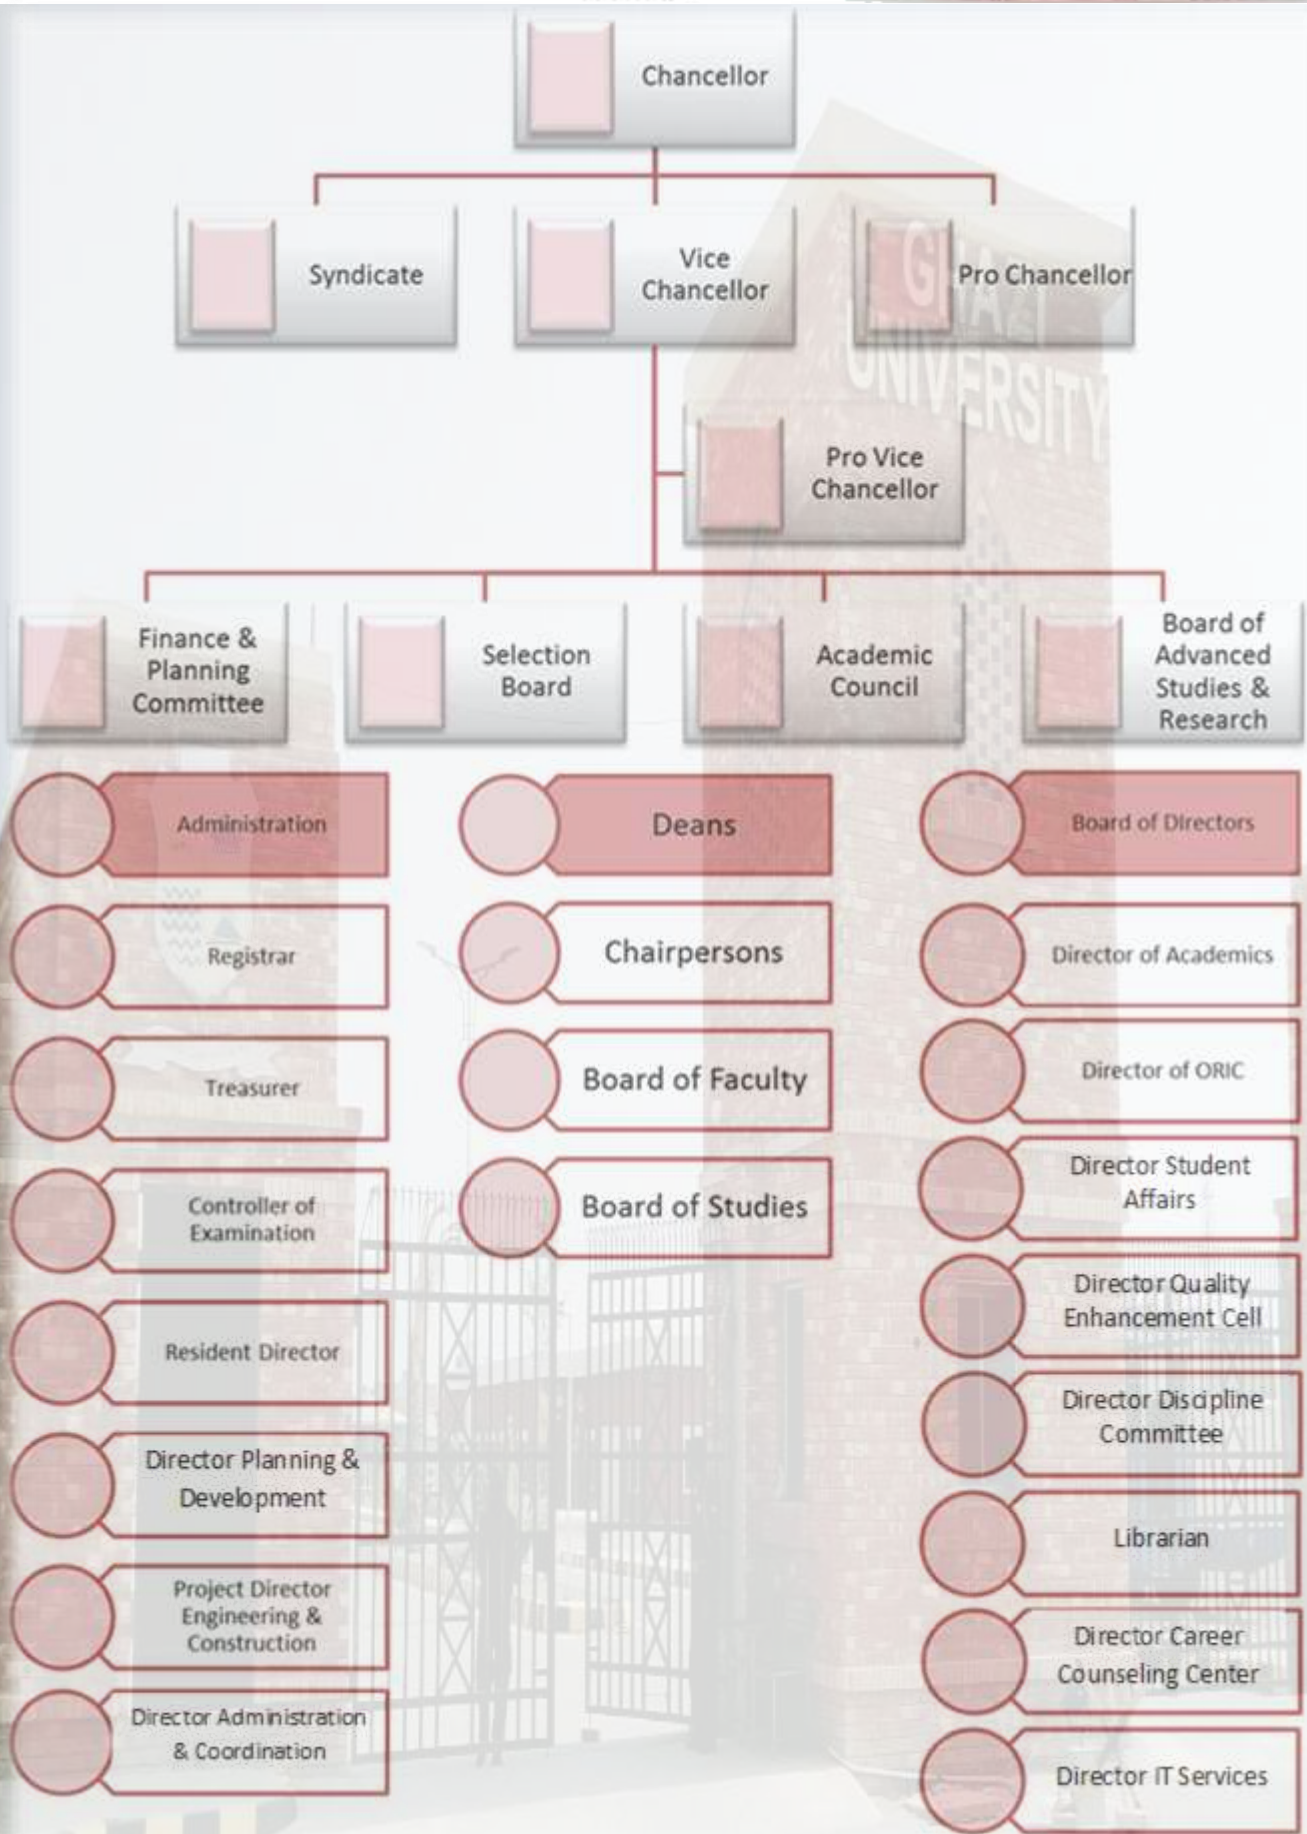

PROF. DR. MUHAMMAD TUFAIL (T.I.)

Message!

I extend my heartiest welcome to all the students, who after an intense competition, have become the part of this prestigious institution Ghazi University. I believe Ghazi University is a great blessing being the only institution of higher education in this region for the people of Dera Ghazi Khan and the adjacent areas. The very existence of this institution has provided the people of Southern Punjab the opportunity and access to the modern scientific knowledge which will enable them to cope with the challenges posed by the modern world. Ghazi University Dera Ghazi Khan is in its infancy and its administration and faculty is striving hard to take it to the zenith of glory and excellence. We aspire for a real change, indeed the quality that can be achieved by incorporating quality and excellence in all fields of learning, teaching, research and innovation for quality life. Teaching and research are the two pillars that sustain the edifice of a university and provide the indicators through which the ranking of an institution is determined. The university administration is striving hard to improve the standard of teaching and research activities according to the global needs. As such, we have a resolve to enhance the excellence, encourage innovations and knowledge and to improve resources and competencies of the faculty/scientists, students as well as the University to solve the emerging issues and challenges

GHAZI UNIVERSITY, DERA GHAZI KHAN

Introduction

It was established by the Government of the Punjab by promulgation of constitutional enactment in 2012 but became functional as a full-fledged University on 11.06-2014. The Ghazi University, Dera Ghazi Khan is the gateway to education in the Southern Punjab. Ghazi University came into being with the promulgation of the Ghazi University Dera Ghazi Khan. It was established by the Government of the Punjab by promulgation of constitutional enactment in 2012 but became functional as a full-fledged University on 11-06-2014 located in a developing region of a developing country, the University has a challenging frame of reference for its functioning. South Punjab is passing through a process of rapid socio-economic development and needs well qualified and competent scientists, professionals, academicians and administrators. The University is cognizant of this need and prepared to provide meaningful higher education to the youth of the Southern Punjab. The University is committed to develop and sustain an environment conducive to excellence in teaching, learning, research and spread of knowledge. In keeping with the priorities of higher education, the university offers its resources and talent for enrichment and enhancement of quality of life standard through its programs of research and innovations. The University offers graduate, postgraduate, doctoral and advanced programs of studies in the fields of Agricultural Sciences, Arts, Social and Natural Sciences to the people in the backward districts of D.G. Khan, Layyah, Muzaffargarh and Rajanpur. Besides, University faculty and students organize and conduct community services for the wellbeing of the people, provide leadership in all walks of life, develop potential of the students, channelize energies of the youth and strive for reducing the social and cultural differences through knowledge.

Vision

To be a model public University providing affordable, quality, higher education opportunities to develop the potentially rich human resource in Punjab-Pakistan through knowledge-centered teaching and research while maintaining and fostering a high level of ethical and professional standards and promoting national identity.

Mission

Functioning as a student-centric institution dedicated to academic excellence, tolerance and fairness. Maintaining and fostering highest ethical and professional values while teaching students to seek knowledge analytically, be creative, communicate effectively and become technologically literate to meet the emerging needs of our society within the global village. Ensuring and supporting faculty and staff to continue their professional and intellectual development

Our Values

- ✓ Integrity
- ✓ Creativity
- ✓ Teamwork
- ✓ Excellence
- ✓ Responsibility (to all Stakeholders)

Governance

- ❖ The Governor of Punjab is the Chancellor of the University. The University Senate chaired by the Chancellor, is the Supreme Governing/ Legislative Body of the University.
- ❖ The Vice Chancellor is the Chief Executive of the University. He chairs the Syndicate, the Executive Body of the University, and all other statutory bodies.

Quality Control and Assurance has been a popular and practical term in global commercial setup. In education sector, developed countries have been taken measurable steps for quality development and assurance. Keeping this fact in view, Higher Education Commission, Islamabad, Pakistan established Quality Assurance Agency (QAA) and emphasized on establishing Quality Enhancement Cells (QECs) in the public and private sector degree awarding institutions (DAIs). QECs are responsible for all functions at the universities for implementation of quality assurance / enhancement policies and improvement in all the discipline/programs. QEC consists of professionals and is directly headed by the Vice Chancellor. Realizing and understanding the importance of Quality Assurance, Ghazi University has established its Quality Enhancement Cell on 18th November 2015 for implementation of the quality improvement programs under the supervision and guidelines of the Higher Education Commission and Quality Assurance Agency (QAA) of HEC Islamabad.

DEPARTMENT OF BOTANY

Introduction:

The Department of Botany, Ghazi University of the Punjab stretches back over four decades. It was established in 1964. Prof. Haq Nawaz Khan headed the Department of Botany. In 1973, the graduate (B.Sc. Program) has been launched. The program of Master has been started in 1995. In the past four decades, the Department has developed a very elaborate program of teaching and research for BS, M.Sc., MPhil., and now Ph.D. Degrees is going to be initiate very soon.

At present, the Department of Botany is offering BS (4 Years) and M.Phil. programs. Under and Post-graduate classes are being taken both in morning and evening programs. Total 472 students (Boys=203, Girls=269) with gender ratio of 75.46 are enrolled in both morning and evening programs. The graduate of this department is ranked amongst the best of in South Punjab. The Department has dedicated and hardworking faculty comprising of 6 permanent and 4 visiting teachers. Out of them 5 are Ph.D. and 5 are M.Phil. Faculty members have broad range of expertise from almost all fields of plant sciences. All faculty members are highly motivated and actively involved in academic and research activities. An extensive scheme of studies has been developed for post graduate degree program in the field of Botany including all major aspects such as ecology, genetics, physiology, taxonomy, anatomy, molecular biology of plants and biochemistry. These courses are taught by faculty who enjoy teaching and have a commitment to education. Besides teaching, faculty members also ensure students participation in laboratory exercises, practical as well as field tour. In conclusion students have a better knowledge of flora of South Punjab i.e., identification, uses and applications. Department of Botany prepares students for careers in industry, government agencies and teaching jobs.

Objectives:

The basic mission of the Department is provision of quality education with the aim of producing trained and skilled human resources in various fields of Plant Sciences through formal teaching, research and outreach activities. Program objectives intend to impart not only theoretical information to students but moral and ethical information as well.

1. To build up the Department on modern lines for education and training level
2. To impart basic knowledge and scientific skills in the field of plant sciences
3. To train the students for Integration of multidimensional innovation
4. Anticipation of new teaching/researchable areas

Job Opportunities:

The future prospects of choosing Botany are highly multifarious. Whether at basic or applied level, the study of plants stands central amongst several disciplines. Knowing about plants is fundamental to keeping a sustainable biosphere, as well as, securing well-being of mankind on long term basis. Getting knowledge and doing research on plants' visual appearance, growth, evolution, breeding, utilization, and environmental interactions is highly important. Studying Botany can help one excel in the basic disciplines such as, Anatomy, Biochemistry, Biophysics, Bryology, Cytology, Ecology, Genetics, Lichenology, Molecular Biology, Microbiology, Morphology, Mycology, Paleobotany, Pteridology, Phycology, Physiology, Systematics, Systems Ecology and Taxonomy. The Botany graduates can excel in disciplines related to Applied Plant Sciences such as, Phytotechnology, Agricultural Sciences, Agronomy, Biodiversity Conservation, Biotechnology, Breeding, Economic Botany, Environmental Sciences, Ethnobotany, Food Science and Technology, Forestry, Horticulture, Marine Botany, Natural Resource Management, Plant Pathology, Plant Entomology and Sustainable Ecosystem Services. The major employers of plant biologists are educational institutions, federal and state agencies, as well as industries. Job opportunities usually depend upon educational training and experience. New positions in Botany are expected to increase at an

above-average rate through the turn of the century. Growing world population continues to increase the need for better food supplies. Environmental concerns, such as air, water and soil pollution, will create openings for Ecologists in government and industry. The search for new drugs and medicines and useful genes for improving crop plants will continue to create a need for botanical explorers.

Introduction:

The Department of Chemistry started regular functioning in 2014, for BS and MSc Programs. The course offered in the Department of Chemistry at Ghazi University Dera Ghazi Khan is according to the scheme of studies approved by the Higher Education Commission (HEC) of Pakistan to meet the national and international standards. Presently, the Department of Chemistry offers 4 years (8 semesters) BS program, 2 years (4 semesters) MSc program. Our vibrant and highly qualified faculty includes 03 Ph.D. degree holders with vast teaching and research experience with international exposure in different countries. The Department is currently offering specialization in various disciplines of chemistry mainly in organic chemistry, inorganic chemistry, analytical chemistry, physical chemistry and biochemistry.

Objectives:

The objectives of the Department of Chemistry are to create a conducive environment of learning for its undergraduate and postgraduate students and to achieve excellence in the area of research and education. The basic objective of the Department of Chemistry is to educate the next generation of chemists with the capacity to solve real problems and provide leadership that can lead to the economic transformation of the country. The mission of the Department of Chemistry, Ghazi University Dera Ghazi Khan is to equip the students in the areas of research-based knowledge of chemistry in order to enable them to compete at the international level, to achieve excellence in research, teaching and chemistry. Our students become world-class scientists and feel proud as part of this excellent department.

Job Opportunities:

The department of chemistry is a leading institute in Ghazi University and covers all the aspects of subject-related indispensable for all the fields of life sciences. Its involvement in providing energy, food, shelter, clothing, medicine and other necessities to human beings makes it versatile in life sciences field. Thus, the study of chemistry as a subject is important in the progress of human beings on the global level. The main aims of the curricula of the Department of Chemistry are to impart sound knowledge in a creatively and analytically. For this purpose, different methods of explanation, investigation, organization of data, and its utilization are taught to the students. This helps them in applying chemistry in social and economic spheres, such as health, agriculture, industry and defense. Further, the courses offered by the Department of Chemistry improve the students' writing, oral communication and computer skills, thereby meeting the needs of the changing national as well as a global scenario. It encourages the students to become independent learners, broaden their knowledge, and develop their capabilities.

Introduction:

The Department of Computer Science aims at providing education and training at all levels to contribute to the national pool of computer scientists that meet the growing demand for computer professionals in the country. The Department was established in 2000 at Govt. Postgraduate and 2006 in BZU Sub-Campus D.G. Khan. Now both of them have been merged into Ghazi University by University Act 2012. As the founding institution for Computer Science education in South Punjab, the Department of Computer Science has played a pioneering role in the advancement of Computer Science education and growth of IT sector in the province. The contributions by the Department in this respect have been wide-ranging and pervasive. Our programs will enable the students to understand the theoretical, conceptual and practical knowledge of computer science and to enable them to build up new competencies. Our curriculum is frequently reviewed, and new courses are commenced due to rapidly evolving discipline. The courses of study in the Computer Science Department for each degree is updated. The Department has an internal library with a good supply of books and well-equipped and well-furnished laboratories. Access to major research journals and other resources is available through HEC and university subscribed links and accounts.

Objectives:

- ✓ To create the most conducive environment for quality academic and research-oriented education in computer science and Information Technology that prepare the students for a globalized technological society and orient them towards serving the society.
- ✓ To produce computer science graduates to design and develop quality software solutions, be able to work successfully within challenging environments and will be good professionals.

Job Opportunities:

Computer science is a dynamic and rapidly growing area that has become an integral part of the world that we live in today. Having a degree in this field will provide you with a deep understanding of theories and emerging technologies. This knowledge and experience will allow you to develop cutting-edge solutions that address today's challenges. With the fast-changing connected world, computer science is a key area for future careers across the world. The term computing covers every kind of digital technology that we use to create, store, communicate, exchange and use information.

Introduction:

The Department of Mathematics is functional since the Existence of Govt. College in D.G. Khan. The classes of B.S.4-year are running successfully in the Department and there are more than 660 students which are registered with the Department. The vision of the mathematics department is to become a center of mathematics in the region that revives and nourishes the mathematics culture and produces individuals possessing revolutionary and innovative academic records to compete at the national and international level. The philosophy of the department is to educate mathematics in a much more interactive and conceptual point of view. Investigations and conceptual learning allow one to see mathematics being created by oneself. We aim to provide a new generation of innovative researchers and quality teachers to the nation. Our graduates will find numerous opportunities of working at research and teaching institutes in Pakistan and abroad. We provide mathematics instruction to students in a broad range of Graduate and Undergraduate academic programs in the Faculty of Science, Arts, Agricultural Sciences, Management & Social Sciences. The department of mathematics has the privilege of having faculty members consisting of eleven (02) Associate Professors and one (01) Lecturer who graduated from esteemed national and international universities. The faculty members have vast teaching and research experience in diverse areas of the subject.

Objectives:

The objectives of the mathematics department are to graduate qualified cadres who are equipped with insight and research skills in the field of mathematics and to deliver learning opportunities of unmatched breadth and depth by providing an environment where students can learn and become competent users of mathematics and mathematical applications. Moreover, the department will contribute to the development of students as mathematical thinkers, enabling them to become lifelong learners, to continue to grow in their chosen professions, and to function as productive citizens.

Job Opportunities:

- Mathematics helps you to understand the world around you and satisfy your curiosity.
- Studying Mathematics develops your critical thinking and problem-solving skills.
- Mathematicians are versatile, which opens a wide range of future careers.
- Mathematics is a global enterprise and offers you the opportunity to work abroad, or in international research collaborations.
- Mathematics drives technology advancements, impacting society, the environment, and the economy.
- Depending on the concentration that a student selects during the study, various job opportunities are available after degree completion. Some of the most visible ones are top academic and industrial research positions, Software Development, Education Sector, Consultants, and many more.

Introduction:

The Department of Physics has been established under the Faculty of Science in 2014. The Department offers different graduate and undergraduate degree programs in physics which are approved from Higher Education Commission (HEC) Pakistan. These programs are designed primarily for the students who want to prepare the career path which takes advantage of the diverse and expanding opportunities in industries, strategic organization and universities. The designed curricula for these programs provide a solid foundation in the concepts of physics as well as giving the students the experience and understanding of application of these concepts. The Department of Physics aims to produce physics graduates with sound knowledge of basic and applied physics. The graduates with ability and skills to understand and tackle the research problems in advanced areas of science and technology. The graduates from Physics department are equipped with the necessary skills and competence which is required in the major research and technical organizations like the NESCOM, NDC, PAEC, KRL etc. The Department focusses on the research-oriented education, collaborative research groups, seminars, workshops and international conferences that's why the produced physicists have well- matched rationale to deal with fundamental constituents of the observable universe from macroscopic to sub-microscopic level. Our faculty uses state-of-the-art pedagogical methods and materials aided with well- equipped labs and the latest inventory, thus preparing the students for independent research projects as well as their absorption in top-level organizations. Currently, there are more than 700 students enrolled in the department. We believe in continuous efforts in education and innovation to build DOP into a training base for outstanding talents in physics and relevant scientific research and high-quality research-oriented teachers. DOP believes the expansion of the Department into School (School of Physics) is indispensable; to cater the growing intellectual needs of students and to advance the level of graduates.

Objectives:

The aim of the department is to produce the graduates having caliber, knowledge and skills which are needed for development of country. Department of physics aims to pursue excellence in physics through teaching and research. Physics, being the key fields of sciences, deals with the core concepts of physics as well as their application in different fields. It is a diversified field which gives birth to many other disciplines over the decades, such as Electronics, Material Sciences, and Engineering etc.

Job Opportunities:

Reasons to study physics at university?

1. Physics helps you to understand the world around you and satisfy your curiosity.
2. Studying physics develops your critical thinking and problem-solving skills.
3. Physicists are versatile, which opens a wide range of future careers.
4. Physics is a global enterprise and offers you the opportunity to work abroad, or in international research collaborations.
5. Physics drives technology advancements, impacting society, the environment and the economy.

Department of Statistics

Introduction:

The Department of Statistics is functional since the existence of Govt. College in D.G. Khan in 1945. The present Department of Statistics was established in 2013. In 2010, Higher Education Department started B.S. 4-year Program in 26 Colleges of the Punjab and Govt. P.G. College D.G. Khan was among one of them. Now the classes of B.S-4-year Programs are running successfully in the Department. The development in 21st century has resulted in an immense importance of Statistics. Statistics provides well-developed methods for optimization and efficient decision-making, which makes it the most widely used subject with applications in almost all the areas. The graduates of Statistics have a wide range of national and international job opportunities. Our graduates are serving in public as well as in private sector. The job opportunities are available in teaching sector, bureau of statistics, banks, hospitals, planning & development departments, chambers of commerce & industry, research & development organizations, and marketing research companies.

Objectives:

The basic objective of the Department of Statistics is to provide quality education with the aim of producing trained and skilled statisticians, in various fields of Statistics through class teaching, research and outreach activities. Our mission is to train our students with the modern statistical knowledge and to prepare them for the challenges of modern world.

Introduction:

The Department of Zoology is offering B.S., M.Sc. and M.Phil. degree programs. The degree programs in biological sciences are designed to be flexible in order to meet the needs of students which includes botany, zoology and chemistry. The undergraduate students are enlightened with sub-discipline of zoology such as Microbiology, Wildlife and Conservation, Parasitology, Reproductive Physiology/Endocrinology, Developmental Biology, Aquaculture, Fisheries, Animal Physiology, Paleontology and Environmental Biology. The laboratories are designed for conduction of practical work according to the curriculum approved by the academic council of the university. The department is committed to put efforts for the development of ethical values and professional skills among graduates. Our qualified graduates will be compatible to get opportunities in diverse range of professions such as education, research and relevant administrative positions. On the other hand, zoologist have the capability to work independently in different organizations and departments such as the Health, Forest, Fisheries, Wildlife, Agriculture and Animal Husbandry, etc. After B.Sc. (Hons.) 4 years, a zoology graduate has a wide experience and capabilities to serve or learn further in education, health, agriculture industry and environment departments. A designated high-level faculty, full of ingenuity and enthusiasm, is the vital force of the department. Our laboratories are well equipped with modern instruments, a well-prepared classroom and a large library, offers students the best possible facilities in their academic activities. All faculty members use and practice their abilities to the maximum with an emphasis on active learning. In order to share research facilities for the educational and professional development of students with educational needs, providing the highest level of training and research at globally recognized level MS/M.Phil. The main research areas of the department are Paleontology, Fisheries, Human Genetics, Biotechnology, Parasitology, Entomology, Ecology, Systematics and Nano Sciences.

Objectives:

The Objectives of department of zoology is to promote undergraduate, graduate and post graduate students in education and research. Our understanding of how animals function and interact has grown explosively in recent years. New biological insights flood the media and influence everything from medical care to global politics. We in the Zoology department address major biological questions through our research: To achieve excellence in teaching, research and extension education in Zoology and its sub-disciplines

- To offer a modular course of lectures and associated seminars, research projects and practical classes, supported by supervisions where appropriate.
- To provide professional training in effective verbal and written communication skills.
- To produce globally competitive graduates and postgraduates in Zoology

Job Opportunities:

Zoology makes a huge impact on our world through the scientific study of the evolution, anatomy, physiology, behavior, habitats, and health of animals and humans. It includes diverse approaches such as electron microscopy, molecular genetics, and field ecology. By studying animals, we develop a better understanding of how we, ourselves, function and interact with the world around us. The search for answers to our questions puts us in the incredible position of being able to affect change, empower better choices, and develop solutions for a stronger, healthier world. Animals on the verge of extinction, people in need of medical care; from seemingly small, to the very large.

Introduction:

The Department of Business Administration (DBA) offers graduate and undergraduate programs in Business studies. Multiple programs are offered in both graduate and undergraduate level including, MSBA, BBA (Hons.), and BBA (2 Years) programs that are approved from the Higher Education Commission (HEC) Pakistan. These programs are designed based on the need of the industry, and frequently reviewed to address the ever-changing industry requirement. Due to the higher demand of the qualified resource by the industry, students have to go through interactive education, and intense training to meet the industry's demand. However, new programs including MBA (2 Years), and BS Accounting and Finance, BS Entrepreneurship, and BS Supply Chain Management are being developed to serve the industry's requirement. The goal of the department is to prepare students for a successful management career. The faculty of the department consists of professional and experienced teachers. At DBA it is ensured that students get maximum exposure to the use of computing techniques in business studies, and all the students have ready and easy access of computers provided by the department. Moreover, students are also availing the facility of Digital Library under Pakistan Education & Research Network a project of Higher Education Commission (HEC) of Pakistan. Our final product is our graduates, and in terms of the employability, the DBA's graduates have an advantage over the rest of the graduates because there are numerous positions available in South Punjab, in the field of Finance, Marketing, Sales, Administration, Human Resource Management, and Supply Chain Management, and thus our graduates are hired immediately based on their competency and skillset.

Objectives:

To develop future leaders by providing a teaching and learning environment that instil entrepreneurial capabilities, research & innovation and an unmatched learning experience, that encourages effective decision making, critical thinking and ethical conduct to serve industry and society at large.

Job Opportunities:

1. At DBA students will learn to develop problem-solving skills.
2. Students will have an opportunity to cultivate communication skills, and boost teamwork.
3. Graduates can become entrepreneur and pursue their own business venture.
4. Graduate can pursue career in the field of Supply Chain Management, Marketing, Human Resource Management, and Finance.
5. Through case-based methodology, students will be equipped to handle difficult situations, and will be able to make timely decisions.

DEPARTMENT OF **ECONOMICS**

Introduction:

It is well-recognized that sound economic policies for any country require the services of trained economists, who have the analytical ability and the latest knowledge to address emerging contemporary economic challenges. Moreover, one of the main objectives and contributions of Economics is the application of economic theory, which leads to create new knowledge. The Department of Economics, Ghazi University, ensures the dissemination of new knowledge needed for various human services concerning economic well-being. We have introduced undergraduate and graduate-level programs that meet market demands and enhance our students' intellectual ability. The Department aims at fostering advanced education and training in Economics, which transforms human resources into human capital. For this purpose, BS Economics and M. Phil in Economics programs have been launched, revised, and improved over time to cater to contemporary economic challenges in developing countries. We ensure a purposeful academic and social life at "Ghazi University". Therefore, students feel proud of investing their precious time and energy for their bright future, career, and grooming their personalities. We have opened up a new window of opportunity to fulfill students' dreams to have quality education at their doorstep. Our doors are open to attract students on merit, impart specialized education, and develop moral values. This Department is equipped with state-of-the-art facilities and highly qualified faculty. Currently, we have 75% PhD faculty, which have a distinct career in the public sector, research, and education. Now, students may benefit from it and get ready to embrace the challenge to achieve their goals. We care for our students and ensure lifetime learning. The Economics Society of the Department (ESD) offers distinguished academic and social services to improve student's competency and contribute to uplift the living standard of civil society.

Objectives:

The objectives of the Department of Economics at Ghazi University are to offer degree programs that equip students with the latest knowledge, economic theory & applied research, with a holistic understanding of global, regional, and local socio-economic & financial issues, which they can utilize to make optimal decisions for themselves. Therefore, our mission emphasizes learning environments with diversified knowledge and cultural enrichment. We transform traditional concepts into a new structure with active industry involvement so that our students can have multi-talented leadership potential. We want our students to challenge assumptions, think beyond visible boundaries, and add extraordinary values to their careers. The strategies are ultimately designed to build models for the students for their competency and capability to address emerging global business and societal challenges.

Job Opportunities:

A prospect of employability is an essential part of the degree obtained. Completing the degree helps in increasing skills, expanding networks, and clarifying career goals. Industry placements are the ideal opportunity for gaining relevant experience and are a great way to discover whether a particular career path is the one for you. Many graduate students of the Department of Economics are serving in various industries and public and private institutions. The Department also provides opportunities for mini and micro-placement schemes in paid or unpaid internships to its students during their academic sessions. Moreover, the Department is already engaged in student's placement activities in collaboration with industry, various organizations, and institutions. Various industries hire graduates with a degree in

economics. The private sector employs graduates with a degree in economics in their finance and accounting departments. Government institutes also employ university graduates for their departments like finance division, bureau of statistics, and economic planning. The banking sector is another growing industry for economists in Pakistan. Banks hire an economist to help them understand different financial issues and service portfolios. Interestingly, with so many jobs in this field, students who passed their intermediate or equal degree with pre-engineering, medical, or commerce as a major can join this field of study.

Department of **SOCIOLOGY**

Introduction:

The Department of Sociology provides a rigorous and academically challenging program of study that allows its students to develop intellectually, socially, and professionally and to offer students sociological tools and insights they can use to address complex issues and problems encountered in social institutions and organizational settings. The Sociology Department is committed to educating students about the realities of human social interaction. Sociology Program take a broad-spectrum approach to this, offering courses that analyze social interaction from a large scale, institutional and global perspective, as well as courses that equip students to analyze even small, daily interactions. Because human social life is fraught with inequalities and oppression, we train our students to think critically. Because our students are educated to be active, critical thinkers, they become responsive members of their community. They leave our program with analytical skills and the necessary oral and written skills required to succeed in the workplace. Upon completion of a BS or MSc in Sociology, our students will be equipped to continue their processes of lifelong learning, whatever career paths they take.

Objectives:

To support students on their path to becoming informed, well-rounded, and effective members of society by providing them with a rigorous curriculum where they can see themselves and their future life paths represented. We believe that the skills provided by an education in sociology are a public good, and we hope our students go on to be the leaders of tomorrow, working for a more innovative, comprehensive, fair, and sustainable future.

Job Opportunities:

To serve humanity and to address the socio-cultural issues and problems of society, a sociologist is a person who has more knowledge, skill and insight vision to cope all social problems and develop harmony among different social group, and societies. **In Govt. Sector** (Lectureship /Teaching at University and College level, Research Officer, Social Welfare Officer / Medical Social Officer, Population Welfare Officers, Officers in Federal & Provincial Ministries of Human Rights, Officers in Federal & Provincial Ministries of Women Development, Parole/ Probational Officer (Prison Department), Officer in Child Protection Bureau Punjab, School Health & Nutrition Officers, Social Mobilizers in Literacy Department, and **In Private Sectors** (National / International NGO, National Level Organization i.e. NRSP, PRSP, BUNYAD, AGHAI, LPP, FDO, BEDARI, BISP, United National Agencies i. e. DEPARTMENT OF ENGLISH

Introduction:

The Department of English offers undergraduate and postgraduate programs in English Language and Literature. One of its hallmark is M.Phil program in English (Linguistics) which caters to the needs of research scholars from far off areas of the region. The Department has remained an integral part of Ghazi University since its inception in 2014. It has been a prestigious Department of the Faculty of Arts. It is providing support to nearly all the academic departments of the University where English Language is taught as a minor course. It boasts of high enrollment as each year more than 1000 aspirants apply for BS and M.Phil programs. The programs in English Language and Literature are designed primarily to develop in students the ability to use language skillfully and to interpret literature effectively. The programs offered at English department are approved from Higher Education Commission (HEC) of Pakistan. The courses taught at the Department not only provide a solid foundation in the concepts of English Language and Literature but also improve critical thinking skills of the learner and inculcate in them a spirit of inquiry through the course in research methodology. The Department of English is committed to support and encourage students to become independent lifelong learners. Its aim is to produce graduates with ability and skills to understand and tackle the research problems in advanced areas of English Language and Literature. The English department provides programs that develop the challenging skills and competence which is required in the field of education too. The Department of English, with the research-oriented education, collaborative research groups, seminars, workshops and international conferences, is producing linguists and literary experts as all programs are designed to build, maintain, and advance skills in reading, writing, speaking, listening and research. Students learn to read critically from a wide range of literary and informative texts. We believe that these skills are essential for coping with the challenges of the 21st century. Faculty uses state-of-the-art pedagogical methods. A well-established, IT equipped, and state of the art smart room is near to completion at the Department that shall be used as language lab, seminar room and digital library where the students & scholars will have access to knowledge of the age with the help of modern technology. The Department aims at training the scholars to carry out independent research projects and through their knowledge and skills acquired at the Department contribute to the field of education and other fields of life. In other words, the programs are meant for rigorous training in the field of Linguistics and English Literature providing students with a sound theoretical knowledge harmonized with hands on practice in the form of exhaustive activities carried out during the study. DEPARTMENT
OF
**HISTORY AND
POLITICAL SCIENCE**

Introduction:

Department of History is one of the most important and emerging departments of Ghazi University Dera Ghazi Khan. It is located at the city campus of Ghazi University. The Department of History started functioning in 2018 with BS-4 and M.A Degree Programs under the visionary leadership & supervision of the worthy Vice Chancellor Professor Dr. Muhammad Tufail Ghazi (T.I). The Department of History is gradually making progress day by day. The curricula have also been revised and updated from time to time. The Department offers a variety of courses providing advanced and up to-date knowledge of Historiography & Research Methodology, Colonial History, Muslim Rule in South Asia, History of Modern Europe, History of Modern Muslim World and History of Pakistan along with regional history of almost all the areas of our country as well. We have a strong tradition in the study of religious, social, cultural, political and constitutional history, which together constitutes the major components of our graduate program. With academic activities the department is also making efforts to nourish the students in all aspects of life to prepare them as good citizens of Pakistan.

Objectives:

The basic objective of the Department of History is the provision of quality education with the aim of producing trained and skilled human resources, in various fields of Social Sciences through class teaching, research and outreach activities. Therefore, the mission of the department is to use the knowledge of history, through impartial analysis of the past and present, as a torch bearer for those who do not learn from history, and they repeat the same mistakes. A historian is a 'doctor of the nation' and we want to produce true and knowledgeable 'doctors of the nation. It is also necessary to promote the self-awareness, Socio economic, cultural and political development by producing such graduates who would be responsible citizens and contribute for the advancement of the society. This department also aims at the advancement of intellectual leadership through teaching, research and innovation.

Introduction:

Welcome to the Department of Islamic Studies, Ghazi University, Dera Ghazi Khan, Pakistan. Study of Islam has become a significant area of academic endeavour and the fast growth of this discipline is due to the emerging global importance of Islam as a political and cultural force and as one of the major religions of the world. Therefore, Department of Islamic Studies initiated a multicultural curriculum and atmosphere to equip their scholar to lead the world. The faculty team has been effectively applying pedagogical motivational techniques, innovative teaching strategies, and experiential learning practices for delivering Islamic knowledge. The department offers variety of programs including BS-4year, MA and MPhil degree programs and intends to also initiate PhD program as soon as possible.

Objectives:

To develop the Ghazi University as the Premier place of learning in Pakistan, to provide with a sound intellectual foundation for the ideological, moral, intellectual, and social development of the Muslim Ummah within the framework of the values and principles of Islam, to highlight and define the relevance of Islam in changing modern times to the whole human life.

Job Opportunities:

Islam, or people's assumptions about Islam, became very visible in the media and in the world in general. In addition to this, the growing number of Muslims in the Western societies in recent decades has created the need for better understanding of Muslims and their beliefs in order to create a well-balanced environment conducive to racial and ethnic harmony. Therefore, Islamic Studies has become a subject of strategic importance in our multicultural society. The students of today, if properly taught, will become the teachers of the future with a vision for multiculturalism and peaceful co-existence. The department trains its students in all the major areas of Islamic disciplines. All the courses pertaining to Islamic learning are taught and imparted from the original sources to deliver the first-hand knowledge of Islam to the students. In pursuit of the university vision and mission, the faculty members of the department have a great emphasis on the students' ethical grooming and character building based on the Islamic ethical system and moral values, which makes Ghazi University a unique institution.

Introduction:

The Department of Agronomy was established during 2002 under the umbrella of College of Agriculture, Dera Ghazi Khan, Sub-campus University of Agriculture, Faisalabad. On 11th June 2014 the College was merged into Ghazi University, Dera Ghazi Khan and hence the department too. Since the establishment of university, Agronomy department is deeply involved in teaching and research in areas such as cropping systems, stress physiology, genetic transformation of crops, biological nitrogen fixation, water use efficiency, integrated weed management, Allelopathy, Bio-herbicide weed control, seed production and technology, plant nutrition, intercropping and simulation modelling. Agronomy is the pioneer department of the university that offers Ph.D. degree along with B.Sc., (Hons), M.Sc. (Hons) degree programs with major emphasis on modern crop husbandry practices. The department owns the highly qualified and competent faculty having 10 faculty members out of which 9 are PhDs. The faculty is committed to excellence in research and education and proud of the outstanding students and staff. As Department of Agronomy, we form a community dedicated to understanding the provision of food to the people of country and world through crop production with the help of research and modern technology. We at Department of Agronomy encourage the culture of interdisciplinary research. Our faculty is not only dynamically involved in pure and applied research using the existing resources but also developing research collaborations with other organizations to improve the scope of research. As a result, the faculty and the students have published their works in several international and national peer-reviewed journals. Department also provides advisory services to farmers, NGOs and the relevant agro-based industry, imparting short term training to farmers and in service agri-personnel pertaining to latest developments in this field for better resource management and sustaining crop yields under changing environmental scenario. The Department offers undergraduate (B.Sc. (hons.) Agriculture) and postgraduate (M.Sc. (Hons.) Agronomy and Ph.D.) programs. The department keeps updating its courses occasionally keeping in view the need of the farmers, industry, and society. Through our highly qualified faculty, purpose-built building, computer labs, library facilities, laboratories, and motivating environment we ensure our students' learning. Moreover, continuous supervision and counselling we assure their intellectual capabilities. Our graduates are engaged in several highly reputed public and private organizations in Pakistan and abroad. We welcome young Agronomy students to join the department and develop their skills. We promise high quality agriculture education in an excellent physical environment.

Objectives:

To develop dynamic effective future leaders in the field of Agronomy with interdisciplinary approach to exploit and solve the burning issues in field of Agronomy

Job Opportunities:

- Higher scholarship and job opportunities in govt and private sector

Introduction:

The Department of Horticulture was established during 2001 in the defunct College of Agriculture, Dera Ghazi Khan. Later on, the college was upgraded to Ghazi University in 2014. Since then, the Department of Horticulture is working under the Faculty of Agricultural Sciences. The department started B.Sc. (Hons.) degree program in 2001 and M.Sc. (Hons.) in 2014. Department offers B.Sc. (Hons.) and M.Sc. (Hons.) degrees in Horticulture. Degree programs are designed to be flexible in order to meet the student's requirements in different areas of Horticulture and variety of courses are offered by the department viz. Floriculture, pomology, olericulture, plant tissue culture, medicinal plants and post-harvest science and technology. The Department has highly qualified and experienced faculty members. The faculty members completed various research projects in collaboration with different funding agencies.

Objectives:

The main objectives of Department of Horticulture are:

- To train human resource in the field of horticulture to meet the increasing challenges of food production, food safety and environmental protection
- To arrange exhibitions and competitions for promotion of various aspects of Horticulture
- To provide awareness among local people regarding growing and marketing of horticultural produce
- To educate growers regarding postharvest management of fruits and vegetables for improvement of marketable crop.

Job Opportunities:

Now Horticulture is tremendous industry and has role in daily life. The horticultural student can work in Teaching, Agri. Research workers, Agri. Extension workers, Horticulturist in PIA garden centers, Assistant Directors in Development Authorities, Assistant Directors in Parks and Horticulture Authorities, Landscape architecture, expanded scope of horticulture is farmers nurserymen, gardeners and aesthetic gratification.

Department of Plant Breeding & Genetics

Introduction:

Plant Breeding and Genetics is taken as a core discipline in agricultural sciences. Plant breeding uses principles from a variety of sciences to improve the genetic potential of plants. The process involves combining parental plants to obtain the next generation with the best characteristics. Breeders improve plants by selecting those with the utmost genetic potential based on performance, pedigree and more sophisticated genetic information. Plants are utilized and improved for food, feed, fiber, fuel, shelter, landscaping, eco-systems services and a variety of other human activities. The Department has six highly qualified Ph.D. faculty members, well acquainted with global experience for research and teaching, well equipped laboratories and sufficient number of acres, as an experimental farm for students and faculty research activities. The department is headed by Prof. Dr. Ijaz Rasool Noorka, who has a vast research experience and received Post Doctorate trainings from United Kingdom and global exposure, in various developed countries of the world. A total of 900 acres' land at new campus, having conventional and had planned, highly pressurized irrigation system, for irrigated and arid research, is available for students and faculty to meet the thirst for novel research. In experimental area of Plant Breeding & Genetics, different research experiments like crossing block designated for major crops, germplasm of cotton (exotic, wild and indigenous), and breeding material of wheat from CIMMYT have been planted for field evaluation and student research.

Objectives:

To nurture academic and research activities for undergraduate and postgraduate levels with following broad vision:

1. To plan and conduct basic and applied research in cotton, wheat, rice, maize, vegetables, oil seeds and pulse crops.
2. To develop linkages with private, provincial, national and global research institutions to undertake collaborative research projects.

Job opportunities:

- Research Projects and higher chances for entrepreneurship

Department of Plant Protection

Introduction:

The Department of Plant Protection, one of the cores and biggest department in Agricultural Sciences, was established in 2014 under the faculty of Agricultural Sciences, Ghazi University. Department has two main disciplines: Agricultural Entomology and Plant Pathology. Prior 2014, the disciplines, Agricultural Entomology was separate departments under the defunct College of Agriculture, D.G Khan (CADGK) sub-campus University of Agriculture, Faisalabad. The degree program B.Sc. (Hons) has been offering since 2000 in the discipline of Agricultural Entomology. The degree program M.Sc. (Hons) was initiated in 2008 in the discipline of Agricultural Entomology. The degree program B.Sc. (Hons) was initiated in 2019 in the discipline of Plant Pathology. The degree program M.Sc. (Hons) will be offered in fall 2021 in the discipline of Plant Pathology.

Objectives:

The ambition of the department is to ensure plant and animal health, availability of healthy and quality food, safe and quality pesticides and sustainable crop production through integrated management of agricultural pests and diseases.

SCHEME OF STUDIES FOR MSc (Hons) and PhD ENTOMOLOGY**NOTE:**

1. For the award of degree for MSc (Hons) Entomology, thesis carries minimum of 6 credit hours.
2. Minimum credit hours of course work for MSc (Hons) Entomology (excluding thesis) should be 24 including minor subjects which shall not exceed one-third of the total course work.
3. For award of PhD degree, minimum credit hours of course work should be 18 (excluding thesis) followed by a comprehensive examination for granting candidacy as PhD researcher as per HEC guidelines.

Explanation: [The ratio of major and minor courses would be 2:1 and shall not apply to credits taken over and above the minimum requirements of 18 credits].

Example: The number of minimum credits under major and minor courses will be 12 and 6.

4. **“Statistics course” will be compulsory for all the post graduate students {M.Sc. (Hons.) and PhD} and considered as deficiency course.**
5. PhD thesis must be evaluated by at least two PhD experts from technologically/academically advanced foreign countries in addition to local committee members as per HEC guidelines.

DEPARTMENT OF Soil, & Environmental Sciences

Introduction:

The role of Soil in the agricultural development of any country is crucial. In case of Pakistan, Agriculture is considered as the backbone of Pakistan's economy contributing 22% in GDP and providing livelihood to 66% population. The agricultural development and sustainability of a country mainly depends on soil resources and environment quality. "No life without soil and no soil without life; they have evolved together". Fundamental knowledge of soil and Environment is not only vital for good health and crop production, but also for natural resources management, climate change and environmental policy and protection. Our degree programs are arranged to prepare students to address agricultural, environmental and soil related challenges in Pakistan and around the globe. We are offering both undergraduate programs i.e. B.Sc. (Hons.) Agriculture-Soil Science, BS-Environmental Science and Postgraduate Programs i.e., M.Sc. (Hons) Soil Science and MS-Environmental Science. In near future PhD programs will be started. After graduation, our students serve in Public and Private sector research, academia, industry and advisory services.

Objectives:

Our mission and objective are to provide knowledge and science-based solutions for addressing food security, public health, protection of natural resources and environment in Dera Ghazi Khan, Pakistan, by producing quality graduates.

Job Opportunities:

The Department of Soil and Environmental Sciences has highly qualified staff having Ph.D. degree and research expertise in sustainable management of soil and Environmental resources including sustainable management of Agriculture system, rehabilitation of degraded soils and natural resource management. Department has all basic equipment in Laboratory to carry out research relevant to Soil and Environmental Sciences. To address the issues faced by the farmers, the department has following research groups; 1) Saline Agriculture, 2) Soil Fertility and Plant Nutrition, 3) Soil and Environmental Chemistry and 4) Soil Physics 5) Soil microbiology and Biochemistry 6) Environmental Science 7) Climate Change. As a student/ Researcher in this department you will not only be able to understand the issues related to soil and Environmental Science but will gain practical knowledge about their sustainable management through laboratory and field work.

Department of Forestry, Range and Wildlife

Introduction:

Department of Forestry, Range and Wildlife was established in 2014, when college of Agriculture Dera Ghazi Khan was merged into Ghazi University and became the part of Faculty of Agricultural Sciences. Initially this Department was limited to offer the minor courses of forestry and range management as a major subject for the students of B.Sc. (Hons) Agriculture. The major in Forestry, Range and Wildlife was started in fall 2019-20. Focusing the forests, range and wildlife situation of the country, department is striving for the excellence in research and education. The prime aims of the department are to ensure sustainable flow of wood and non-wood forest products and services, as well as needs to adopt the innovative and sustainable strategies for the protection of Biodiversity for future generation prosperity. Highly qualified faculty is contributing to research and academic activities with their maximum potential for the sustainable growth in agro-forestry.

Objectives:

The Department is to provide quality education with the aim to produce trained and skilled human resources in various fields of Forestry through formal classroom teaching, field & laboratory research and outreach activities. Program objectives intend to:

- impart basic knowledge and scientific skills in forestry and related fields
- build up the department on modern lines for education, research and training
- conduct research focusing sustainable forest, range and Wildlife management & conservation
- engage local society, forest, range & Wildlife officials to identify the problems and find the solutions of those problems.
- promote awareness among all stakeholders, policy makers and community in general about forests, range & Wildlife Conservation and management for sustainable development.
- develop closer linkages with line departments and research organizations for mutual collaboration in research/developmental activities

RESEARCH & DEVELOPMENT

Research Journals

RESEARCH JOURNAL "GU JOURNAL OF PHYTOSCIENCES"

About

GU JOURNAL OF PHYTOSCIENCES (GUJP) is a peer review open access journal that is publishing quarterly. It is publishing authentic research in the form of original research articles and reviews in the field of Plant, Biological, Environmental and Agricultural Sciences. **GU JOURNAL OF PHYTOSCIENCES** will be recognized by Higher Education Commission of Pakistan very soon in future and will be included in well reported indexing.

Aim and scope

GU JOURNAL OF PHYTOSCIENCES (GUJP) is a peer reviewed, multidisciplinary science journal and have ROAD abstracted/ indexed as well as online ISSN No. 2789-3545 and Print No. 2789-3537. The journal has published selected original research articles and reviews in the field of plant, biology, environment and agriculture in relation with other pure and applied science like medical sciences with the aspects of plants. The scope of journal is therefore necessarily broad to cover recent discoveries in all areas of biological sciences at the interface of related disciplines.

The main objective of the journal is to bring the latest developments in the field of plant, biology, and agriculture to professional and academic researchers. The journal is publishing research papers and review articles, covering various aspects of basic and applied biology. Associate Editors and members of international and national Advisory Board are eminent researchers in their respective fields.

RESEARCH JOURNAL “PAKISTAN JOURNAL OF ENVIRONMENTAL AND LIFE SCIENCES - (PAKJELS)”

About:

The Department of Soil and Environmental Sciences publishing authentic research in the form of original research articles and reviews in the field of Biological, Environmental and Agricultural Sciences. It will be recognized by Higher Education Commission of Pakistan very soon in future and will be included in well reported indexing.

RESEARCH JOURNAL “AL-AAFAQ”

About:

The Department of Islamic Studies publishing authentic research in the form of original research articles and reviews in the field of Islamic studies and history. It will be recognized by Higher Education Commission of Pakistan very soon in future and will be included in well reported indexing.

GHAZI UNIVERSITY OF BOTANICAL SOCIETY (GUBS):

The GUBS has been established with the approval of Honorable Vice Chancellor Ghazi University Khalique Ahmad from the date of 16 February 2016 on the morsel wish and request of Dr. Allah Bakhsh Gulshan and Dr. Abdul Hannan, Department of Botany. The Botanist approach link Society would be travelled to make the green and peace of our homeland. Plants have intrigued people for thousands of years. They provide aesthetic beauty as well as materials for our basic needs. Today our world presents new and complex problems that were never dreamed of a century ago. For instance, increasing human population is linked to environmental problems of gigantic proportion. Coupled to the need for more food is increasingly greater environmental impact. One of the best things about plant science is the number of different specialties and career opportunities from which you can choose. This diversity allows people with different backgrounds, aptitudes, and interests to find satisfying careers in plant biology. More than many other scientific fields, botany continues to provide opportunities for women as well as men. There are few things more fulfilling than to work in a job that is both fun to do and a benefit to others.

I wish to encourage members of the public: Students, young and old, male and female, all races, cultures, beliefs, local and foreign to join the Botanical Society.

Society Vision:

The Vision is to be the best voluntary membership-based society offering value proposition to the members through its activities.

Society Core objectives:

- To promote a caring attitude towards biodiversity, indigenous flora, vegetation of throughout Pakistan in general and Particularly in Southern Punjab amongst all people. It provides a forum for positive collective action by offering its membership to all individuals and organizations sharing its mission.
- To conservation of native flora.
- To increase knowledge and understanding of the indigenous flora and vegetation of Pakistan through environmental education, awareness campaigns, outreach and research-based activities.
- To communicate & co-operate, and work together with likeminded institutions and organizations, when considered appropriate.
- To encourage passion and interest the people of Southern Punjab and visitors in the progress and development of a Botanical Gardens, which would be established by the Board of the Botanical Society of Ghazi University Dera Ghazi Khan or its successor and to encourage active support of local National Botanical Gardens of Pakistan
- Scientific journal would be published in future at the forum of this Society.

CAMPUS FACILITIES

i. Library

There is a large collection of books in the central library comprising of more than 50000 books covering all areas, it has a seating capacity of about 200 students. Research Journals, Dictionaries, Encyclopedias, Newspapers and Books of general interest are also available.

ii. Computer Laboratory

A central computer laboratory equipped with 40 computers is available to all classes and departments for assignment preparation and literature search.

iii. Ladies/ Girls Common Room

In each department, a ladies/ Girl's common room is available separately for prayer and relaxation.

iv. Lecture Hall/Auditorium

More than two lecture/ seminar halls are available in the University with a seating capacity of 50-100. However, The Multipurpose Hall is available for mega programs and conference which is well equipped with multimedia and overhead systems.

v. Student Transport

The university has its own well-established transport system for students/staff and faculty for daily picks and drops. The Transport Department also provides vehicles for study and excursion tours. A shuttle service is also there for intra-city transportation.

vi. Medical Facilities for Faculty and Students

The Health Centre in the campus provides emergency, OPD and basic health hospital unit facilities. Services for general medical care is available.

vii. Academic Counseling

Guidance is available to the students from teachers beyond teaching classes. There is a Career and Counseling Centre in the University to help out the students. Faculty members make informal communication with students in tutorials and discuss matters related to studies and career designing. A student Advisor is there for consultation on academic and other matters. All the faculty members also advise students during their research tenure.

viii. Student's attendance record

Students' attendance record system is in practice and calculated/observed before the final term examination. Students with less than 75% attendance are not allowed to sit in examination as per University Semester Rules.

ix. Financial Support to Students

Number of scholarships available for students *i.e.*, Needy and Post Graduate Scholarships. Many other scholarships like HEC, PEEF, District, Province, and DPCC scholarships are being given which are also displayed on notice board from time to time. Split Ph.D., Indigenous Ph.D. and IRSIP scholarships are available for students, and they get them if they qualify.

x. Greenhouse, Experimental Area

There are experimental areas available for the field work of research students. A Green house in the ground opposite to the Chairperson's office of Department of Botany. It consists of a screen house and about ten experimental areas for student's research. Greenhouses of different dimensions have been constructed for experiments with plants in the Department. These are meant for *in vivo* treatment of plants and research experiments.

x. Mosque

A mosque is centrally located in campus for pray. All teaching, non-teaching staff and students can offer the pray in mosque. It has maximum 250-300 capacity of person to offer pray at a time.

xi. Central Canteen/ Cafeteria

CO-CURRICULAR ACTIVITIES

Importance with Examples

i. Annual Sports

Annual sports are regularly arranged in the university to develop orientation for teamwork and sportsman spirit in the students. Prizes/certificates are awarded to the winners of various events and competitions.

ii. Field Study Tours

Annually large number of field tours are arranged to create the awareness among students and as per given syllabi object. The natural vegetation sites like forests, wastelands, deserts, geological, model farms, archeological, ecological, biological and historical sites to impart on-site knowledge and strengthen the theoretical concepts of students. Study tours are arranged at least once during the academic year. Collection and identification of specimen is also done by the students.

iii. Events:

The number of events is held throughout the year to engage students in curricular and co-curricular activities. Scientific Workshops, Seminars, awareness Campaigns, World Environmental Day, World Ecologist Day, World Biodiversity Day, Awareness walk, and Competitions are organized in campus including debates, quizzes, essay writing etc. Welcome and Farewell parties for students of all classes and academic relevant other programs is arranged once during the year.

7. ENROLMENT

- (i) A candidate admitted to the course shall for so long as he/she has not completed all the requirements for the degree, enroll himself/herself for each semester subject to the maximum admissible limit of 12 semesters in case of four years degree programs including terminal summer session, failing which his/her admission shall stand cancelled.
- (ii) A student after first semester, may apply for discontinuation of his/her studies due to health or any other cogent reason to the Dean/Director/Principal concerned who may allow the student to discontinue his/her studies. He may seek readmission in the same semester next year with the approval of the Vice Chancellor on the recommendations of the Dean/Director/Head of the Sub-Campus/Constituent College concerned or in the subsequent year with the permission of the Academic Council, provided that he/she has not already exhausted the maximum residential requirements for the course. In case a student does not avail both the admissible opportunities for seeking re-admission, he/she shall not be eligible for re-admission in future. Provided that the Academic Council may, on the recommendations of the Dean/Director/Head of Sub-Campus/Constituent College concerned, condone the above period in special circumstances to be recorded in writing.

- (iii) In case a student discontinues a semester without permission, he/she may seek re-admission, in the same semester next year with the approval of the Vice Chancellor on the recommendations of the Dean/ /Head of Sub-Campus/Constituent College concerned or in the subsequent year with the permission of the Academic Council, provided that he/she has not already exhausted the maximum residential requirements for the course. In case a student does not avail both the admissible opportunities for seeking re-admission, he/she shall not be eligible for re-admission in future. Provided that the Academic Council may, on the recommendations of the Dean/Director/ Head of Sub-Campus/ Constituent College concerned, condone the above period in special circumstances to be recorded in writing.
- (iv) Provided further that after the first eight semesters of four years degree programs a candidate may enroll in the semester in which his/her failing/remaining subject(s) is/are offered in accordance with his/her "Scheme of Studies" subject to the maximum admissible limit of 12 semesters.

NOTE

During the "Discontinued/Absent Period" the applicant shall lose his/her studentship status and not entitled to avail any facility like hostel, medical, transport, library, etc. which university extends to its regular students.

Restoring the studentship of willful absent persons will be done on charging re-joining fee with regular fees of the semester and recording discontinued period history in the transcript, respectively. However, discontinuation in the 1st Semester shall not be permissible and such facility will be granted only once during study.

Clarification of Statute 1(i) and Regulation 7(i)

The four semesters provided in excess of the normal duration of the course have to be treated as exactly identical to the original minimum duration in matters of regulating the course conduct. This provision does not place any bar on the students' right to discontinue their studies during these extra four semesters. But what is inviolable in their case is their consecutive nature. One cannot skip a semester during this extra period and recover it beyond the maximum admissible semesters after it has ended. For instance, if a student of four years degree programs discontinues studies in the 11th semester, and the course in question is not offered in the next 12th semester, he/she cannot claim a right to further enroll in the next(13th) semester, except that he/she avails himself/herself of the terminal summer session. He/she has come to the end of his/her studies. The law provides him/her no further chance.

ii) An application for enrolment on the prescribed form (UG-I) accompanied by the prescribed fee paid receipt, shall be presented by regular students in the Office of the Dean/ Director /Head of Sub Campus/Constituent College/concerned on the days notified by the Treasurer's office for the purpose. The date for enrolment with normal late fee will also be announced by the Treasurer's office in the same notification.

Provided that after the expiry of last date with normal late fee notified by the Treasurer's office, the Dean/Director /Head of Sub Campus/Constituent College concerned may within next seven days permit a student for late enrolment on payment of prescribed double late fee.

Provided further that enrolment of such students may be allowed by the Vice Chancellor after the expiry of seven days, till the last day of 4th week after the commencement of classes under special circumstances, in individual cases and reasons to be recorded, with double late fee prescribed for this purpose. After 4th week the Vice Chancellor may also consider the request(s) of the students(s) on case-to-case basis with fine (in addition to double late fee). However, such students would themselves be responsible for consequences (if any) of late enrolment/lecture shortage.

The student who could not enroll a semester will be treated as discontinued for studies without permission of the competent authority and his/her request for continuation of studies, if received, may be dealt with in accordance with the provisions of relevant regulations.

Explanation

Enrolment will only be considered completed when UG-I form is submitted with the concerned Dean/Director/Head of Sub-Campus/Constituent College. Merely depositing of fee will not serve the purpose. However, the Vice Chancellor may allow to submit the UG-1 form on case-to-case basis after due date in special circumstances (with or without fine, as deemed appropriate).

8. COURSES AND SCHEME OF STUDIES

A. Regular Semester:

- i) The curricula and schemes of studies of various degree programs shall be developed and proposed by the respective Boards of Studies to Faculty Board and then submit to Academic Council and Syndicate for approval. Such curricula and schemes of studies shall become effective from the date of approval by the Syndicate, or any other date as may be determined by the Competent Authority.
- ii) A student shall normally be required to take the prescribed courses of six to twenty credit hours

workload offered by the Department/College/Institute/sub-campus in each semester. However, in special circumstances, he/she can add/drop a course(s) with prior approval of the Chairperson/HOD/Teacher Incharge/Director/Principal. The permission must be obtained within seven days from the commencement of the semester.

- iii) The students shall pursue the notified scheme of studies to be approved by the Competent Authority from time to time.
- iv) No student shall take any course unless he/she has qualified the prerequisites for it as determined in the curriculum.

B. Summer Session

Summer session is to be conducted for the students who are required to pass/improve one or more course(s) to fulfil their degree requirements within stipulated duration of the degree program. This special session is therefore meant to save time. The matter to conduct summer session will be initiated by the students who have to qualify/improve a course(s). The students(s) will submit a written request to the Chairperson/HOD/Director of Department/Institute/Sub-campus who will forward the same for approval to Dean/ Director/Principal concerned. Following are the summer session regulations:

- i) A student opting for summer semester shall either pay prescribed fee per course in advance or complete these courses in corresponding semester in the subsequent academic session.
- ii) The duration of the summer session including mid & final term examinations would be 8-10 weeks. Normally classes of 1 and a half hours each will be held for 4 days a week. Remuneration to the teacher will be paid for summer course(s) only if the number of students exceeds 6.
- iii) Summer session will be conducted if there are a minimum of 6 students repeating course(s). For less than 6 students, this special semester may be opted by depositing fee for 6 students.
- iv) A student will be allowed to enroll for a maximum of 3 courses of a semester or lab work of not more than 12 credit hours.
- v) In summer sessions following 8th, 10th and 12th regular semesters, a student may enroll four failed course(s) only, with the approval of the Vice Chancellor (as a special case) provided that he/she will complete her/his degree program after that session. In this situation, s/he will not be able to enroll any "D" grade course(s).

 - (c) 60% of the fee deposited by the student(s) shall be paid to the course Instructor.
 - (d) The competent authority may relax the university dues up to 40% on the recommendations of the Dean/Director/Principal concerned in case if a student will be needy.

9. CONSTITUTION OF ADVISORY COMMITTEES

The Dean/Director/Director /Head of Sub-Campus /Principal of Constituent College shall constitute Advisory Committees in their respective Faculties/Institutes/Sub-Campus to provide adequate counseling and guidance to the students in the selection of their courses and other related matters.

10. ALLOTMENT OF NUMBER TO COURSES

The courses will be numbered to a scheme such as 1st and 2nd semester (301–400), 3rd and 4th (401–500) and so on. This number will be preceded by two to four letters indicating the field of study i.e., AGRON–310(Agronomy–310)

Note: The credit hours are denoted by two digits within brackets with hyphen in between. The first digit represents the theory part while the second (right side) digit represents the practical. Thus 3(3-0) means three credit hours of theory, while 3(3-2) means a total of three credit hours of which two are of theory while one credit hour is for laboratory. The weekly contact hours of a 3(3-0) course will be three-hour class work while the contract hours of a (2-1) course will be a 2 hours per week class work and 1 hour of lab work per week. 29. EXAMINATION EVALUATION SYSTEM

1) Students will be rated according to the 4-letter grade system i.e. A, B, C and D. Grade "F" will be the failing grade. Following is the detail of marks acquired by a student on credit hour basis along with Quality Points (QP) and grades for calculating the GPA/CGPA:

2) cumulative Grade Point Average) /SGPA (Semester Grade Point Average) of a student will be calculated as per following example:

Course	Credit Hour	Marks Obtained	Grade	Quality Point
I	2 (1-1)	32	A	8
II	3 (2-1)	45	B	11.00
III	3(0-3)	48	A	12.00
IV	3(2-1)	38	C	8.67
V	2(1-1)	28	B	6.67
	13			46.34

GPA = Sum of QP / Sum of Credit Hours

Thus GPA = 46.34/13 = 3.56

CGPA = Sum of 'n' Quality Points / Sum of Credit Hours of 'n' semesters

30. GOOD STANDING / PROBATION:

A student failing to meet any of the aforementioned conditions will not be eligible for the award of the degree. While following criteria regarding GPA/CGPA will be observed for good standing/ Probation on the roll/drop from the university.

- i) At the end of first semester a student having a satisfactory standard of attendance, conduct and discipline, with a minimum GPA of 1.00 will be eligible for promotion to the second semester.
- ii) A student who secures less than 1.50 CGPA in second or subsequent semesters will be dropped out from the rolls of the university.
- iii) The minimum CGPA for award of the degree will be 2.20 with no "F" grade.
- iv) A student may clear his/her failed course(s) or subjects in which obtained "D" grade by repeating the

said courses with subsequent session or in summer session to be offered by the Department/Institute/Centre. Prescribed entry/examination fee per course will be applicable.

v) A student who completes all the courses and has not been required to repeat any course(s), obtains CGPA of less than 2.20 but not less than 1.90 at the end 8th semester may be allowed to repeat (only one time) some of the courses in which he/she had obtained the lowest grades, in order to improve the CGPA so as to obtain the minimum of 2.20 failing which he/she shall not be awarded degree and removed from the rolls of the university.

vi) In case of drop because of poor academic performance, the student of Ghazi University Dera Ghazi Khan may have one-time re-admission facility in first semester of the next Academic session in the same or a different program.

31. INCOMPLETE GRADE

If a student is unable to appear in the end of semester examination (maximum two courses) because of a genuine personal problem or serious illness or due to some other unavoidable circumstances, he/she may be allowed to repeat the course when that course will be offered next time following the rules as under:

- i) The student must have fulfilled the required number of lectures.
- ii) He/She must have completed the mid-term exam and sessional work during the semester
- iii) Such student shall be given incomplete grade 'I'. However, the genuineness of the personal problem will be determined by Departmental Examination Committee whose decision will be final. The medical certificate and information of the personal problem must reach the Department before or on the examination date.
- iv) The student will only have to appear in the end of semester whenever the course offered again.

32. REPEATING OF COURSES

A student may repeat a course under obligation, if he/she has failed in the said course, or optionally, if he/she needs to improve his/her grades. To pass a failed course a student will have to repeat the said course when offered by the department in the subsequent session(s). Such a repeat course is an obligation to fulfil degree award requirements. To improve the grades, however, a student may optionally repeat a course(s) only one time. However, after completion of courses prescribed under the 'Scheme of Studies' and residential requirements, a student stands ineligible for improvement of CGPA even if he/she has not exhausted the maximum admissible limit of semesters.

The student(s) desiring to repeat a course(s) will request in writing to the Chairperson /HOD/ Teacher In charge/Director/Principal concerned one week before commencement of the concerned semester. If allowed by the Chairperson/HOD/Teacher In charge/Director/Principal, the student will have to deposit prescribed fee for each course. Where morning and evening programs of such subjects are being offered, the student of morning may repeat the said course with evening program and vice versa. A student repeating a failed course will be bound to attend the lectures whereas a student desiring to improve his/her grades may be exempted from attending the lectures but in both cases fees and dues of the said course will be payable by the student. The exemption from the rule will, however, be based on the genuineness of the case. Such cases after approval by Chairperson/HOD/Teacher In charge/Director/Principal and deposit of fee will be reported by the departmental In charge examination to the concerned teacher(s). Student will have to be in regular contact with the course instructor and complete all assignments, term papers, reports and presentation. Following are the conditions for repeating a course:

- i) Whenever a student fails and gets an "F" grade he/she should repeat the course when it is offered to pass the said course.
- ii) A student who gets a "D" grade in a course may repeat the course only one time to improve his/her grades as per conditions mentioned above. However, a student who has already passed a course with a "A", "B" or "C" grade will not be allowed to repeat in any case.
- iii) A student can be allowed to **repeat/improve** a maximum of six courses (18 credit hours) during the total duration of his/her degree program to improve his/her grades at Bachelors level but not more **than one course per Fall/Spring semester**. However, during last two semesters (7th & 8th) a student may enrol maximum of two failed courses. Provided further that the Dean/Director/Principal concerned on the recommendations of Departmental Examination committee may allow to enrol extra failed courses on the written request submitted by a student well in time subject to condition that he/she will complete his/her degree after enrolment of these courses.
- iv) Only new/better course grade should be included in his/her transcripts.

33. IMPROVEMENT OF 'D' GRADE

- i) In any regular or summer session a student may repeat once those course(s) of the previous semester(s) in which he/ she has secured the lowest grade i.e., 'D' only within the prescribed limit

of credit hours. However, after completion of courses prescribed under the 'Scheme of Studies' and residential requirements, a student stands ineligible to enrol 'D' grade course(s) for improvement of CGPA even if he/she has not exhausted the maximum admissible limit of semesters.

ii) If any student enrolled the "D" grade in any semester but he/she did not appear in the Examinations under such conditions his/her right to improvement will be ceased and he/she could not enrol the said course in future.

iii) Any improved grades will substitute 'F' and 'D' grades of the previous semester for calculating CGPA, but 'F' and 'D' grades will form part of the transcript.
